## ***Workshopping Resolutions***

Over the past three years, the federation has put significant effort and resources into advocating for a universal provincial school food program. Our support for this issue resulted from a resolution that was passed in 2015 and we have tried work with our partners in education to keep the ball rolling. What can be done to move other resolutions forward?

For this year's AGM we are offering an opportunity for members to put their head together to come up with collective impact plans for other important issues that have been identified by resolutions from the past, present, and future. Plans may include work at the local, provincial, or national levels, and will likely require collaboration with other organizations.

Our goal is to come out of the meeting with direction on how local associations or and the provincial board can act on a selection of issues. We will discuss often revisited topics like school food and parent engagement in local associations. We will include discussions on moving 2018 resolutions forward, a workshop on how to write a resolution for next year and a cold case or two. ***We're all in this together!***

The formulation of a problem is  
often more essential than its  
solution.

~ Albert Einstein

## ***Changing provincial education policy***

Since the 1940s and the early School Improvement League, Home & School has been advocating for the total well-being of every child through a robust, democratic, collaborative resolutions process. The PEI Home and School Federation has adopted approximately 500 resolutions since 1953, on topics ranging from school bus safety to science fairs to air quality testing.

Resolutions are the Home & School "superpower," and are the tool we've used to effectively improve public education in the province for more than 65 years.

Join us at this year's Annual Meeting & Convention for a celebration of 65 years of home and school in Prince Edward Island.
